ARJAN SPANNENBURG

BOUND 3

Year: 2025

A majestic synthesis of classical balletic aspiration and the gravity of the human condition, capturing the ethereal reach toward liberation through the weight of physical restraint.

SUMMARY

A majestic synthesis of classical balletic aspiration and the gravity of the human condition, capturing the ethereal reach toward liberation through the weight of physical restraint. The Gravity of Aspiration BOUND III captures the conceptual peak of the series, where ARJAN SPANNENBURG portrays the dancer in a classic ballet pose of elevation. This piece explores the deep psychological realms of the human experience, presenting a powerful visual interpretation of the unseen limits that define our lives. In this wo...

MATERIALS

Matt plexiglas

Giclée print Ultrachrome mounted on dibond with Mat plexiglas. This finish is designed for spaces with high ambient light or large windows. The matte surface diffuses light to eliminate harsh reflections, providing a sophisticated, soft-touch finish that allows the image to be viewed clearly from any angle without a "mirror effect."

Framed with Museum glass

Fine Art print mounted on dibond and framed with museum glass in a wooden frame. The choice for the traditional collector. This combines a structural Dibond mount with the timeless elegance of a wooden frame. By using Museum Glass, we achieve 99% UV protection and a nearly invisible surface, offering the tactile warmth of a classic frame without the green tint or reflections of standard glass.

Diasec Anti-Reflex

Giclée print Ultrachrome mounted on dibond with Diasec Anti-Reflex. An exhibition-grade finish that utilises the patented Diasec® chemical bonding process. This creates a permanent, airless seal between the print and a specialised anti-reflective acrylic. It provides the structural "monolith" look of a contemporary mount while ensuring that even under heavy gallery spotlights, the focus remains entirely on the artwork's detail.

Diasec True-life

Giclée print Ultrachrome mounted on dibond with Diasec Truelife. The absolute pinnacle of art production. This tier uses Truelife® acrylic, an optic-grade material similar to high-end camera lenses. It provides a stunning "liquid" depth and 3D-like colour vibrancy, while simultaneously being anti-reflective, scratch-resistant, and anti-static.

The Silent Power of Vulnerability

Die autonome werking van Arjan Spannenburg (gebore Texel, 1978) weerklink internasionaal by kurators en privaatversamelaars. Sentraal tot sy fotografie is die soeke na identiteit en selfuitdrukking. Deur kragtige, oorwegend monochrome komposisies, beeld Spannenburg jeugdigheid uit wat op die drumpel van volwassenheid staan.

We witness adolescents in a transient, uncertain phase of life. These sensitive portraits capture subjects alone with their thoughts, yet they simultaneously radiate a profound need for communication with the outside world, a search for support, understanding, and love.

Gallery Representation & Exhibitions In addition to permanent representation by ZERP Galerie (Rotterdam), Spannenburg's photography has been selected for prestigious international platforms and events, including:

- Melbourne
- Kunstlinie, Almere
- Schwules Museum, Berlin
- Paratissima, Italy
- Tongerlohuys, Roosendaal

His works are held in diverse private collections and are often seen in prominent public locations, including the City Hall of The Hague.
