ARJAN SPANNENBURG

BOUND 3

Year: 2025

A majestic synthesis of classical balletic aspiration and the gravity of the human condition, capturing the ethereal reach toward liberation through the weight of physical restraint.

SUMMARY

A majestic synthesis of classical balletic aspiration and the gravity of the human condition, capturing the ethereal reach toward liberation through the weight of physical restraint. The Gravity of Aspiration BOUND III captures the conceptual peak of the series, where ARJAN SPANNENBURG shows the dancer in a classic ballet pose of upward reach. This piece explores the deep psychological worlds of human experience, offering a strong visual exploration of the unseen limits that define our lives. In this image, the ch...

MATERIALS

Matte plexiglass

Giclée print Ultrachrome mounted on dibond with Mat plexiglas. This finish is designed for spaces with high ambient light or large windows. The matte surface diffuses light to eliminate harsh reflections, providing a sophisticated, soft-touch finish that allows the image to be viewed clearly from any angle without a "mirror effect."

Framed with Museumglass

Fine Art print mounted on dibond and framed with museum glass in a wooden frame. The choice for the traditional collector. This combines a structural Dibond mount with the timeless elegance of a wooden frame. By using Museum Glass, we achieve 99% UV protection and a nearly invisible surface, offering the tactile warmth of a classic frame without the green tint or reflections of standard glass.

Diassec Anti-Reflex

Giclée print Ultrachrome mounted on dibond with Diassec Anti-Reflex. An exhibition-grade finish that utilises the patented Diassec® chemical bonding process. This creates a permanent, airless seal between the print and a specialised anti-reflective acrylic. It provides the structural "monolith" look of a contemporary mount while ensuring that even under heavy gallery spotlights, the focus remains entirely on the artwork's detail.

Diassec True-life

Giclée print Ultrachrome mounted on dibond with Diassec True-life. The absolute pinnacle of art production. This tier uses TruLife® acrylic, an optic-grade material similar to high-end camera lenses. It provides a stunning "liquid" depth and 3D-like colour vibrancy, while simultaneously being anti-reflective, scratch-resistant, and anti-static.

The Quiet Strength of Vulnerability

The autonomous work of Arjan Spannenburg (born Texel, 1978) resonates internationally with curators and private collectors alike. Central to his photography is the search for identity and self-expression. Through powerful, predominantly monochrome compositions, Spannenburg portrays youth standing on the threshold of adulthood.

We see adolescents in a fluid, unsure stage of life. These sensitive portraits capture subjects alone with their thoughts, yet they simultaneously give off a deep need to connect with the outside world, a search for support, understanding, and love.

Representation by Galleries & Exhibitions Beyond ongoing representation by ZERP Galerie (Rotterdam), Spannenburg's photography has been chosen for esteemed international platforms and events, including:

- PAN Amsterdam
- Kunstlinie, Almere
- Schwules Museum, Berlin
- Paratissima, Italy
- Tongerlohuys, Roosendaal

His works are held in diverse private collections and are often seen in prominent public locations, including the City Hall of The Hague.
